

## HBE Brush Grade Kit Pairing Codes

Canusa-CPS has transitioned to a number pairing system to identify which Cure component is supposed to be used with the corresponding Base components. All Base and Cure components will be paired based on the numerical prefix, to pair like numbers. All Base components will be indicated with a “B” suffix while all cure components will be indicated with an “A” suffix.

Note that HBE-95 has multiple cure grades for the same size brush grade kit. The different cure grades will be indicated with an additional suffix of “R” for RG grade cure, “X” for XG grade cure and “W” for WG grade cure.

|         | HBE BG Kit                           | Base Kit Component                      | Cure Kit Component                      |
|---------|--------------------------------------|---|---|
| HBE-95  | 245600-001 HBE-95 RG 0.5 Ltr Kit     | 1B HBE-95 Base (for 0.5ltr Kit)         | 1AR HBE-95-RG Cure (for 0.5ltr Kit)     |
