

Product Rebranding

KLNN Brand replaces KLNN, WLNN, KTNN, WTNN names

Overview

Over the past year, Canusa-CPS Product Management has been working to rationalize and simplify our product offerings. As part of this initiative, we are transitioning towards using “Brand” names, rather than “Descriptive” names.

Previously the product names differed with changes to configuration and thickness. Moving forward all products will be named as per our current naming convention which separates the product brand from configuration, size, thickness and any other modifications.

The following existing product names are being changed to KLNN:

KLNN, WLNN
KTNN, WTNN

The formulation for this product is unchanged, as this is purely a branding initiative.

Canusa’s current naming convention describes product attributes such as thickness, color, configuration and special characteristics after the product brand name.

The following describes specific examples as to how the naming convention applies to this product:

KLNN 500-450 BK	→	KLNN 500-450 WS BK/L
WLNN 500-450 BK	→	KLNN 500-450 CW BK/L
KTNN 500-450 BK	→	KLNN 500-450 WS BK/T
WTNN 500-450 BK	→	KLNN 500-450 CW BK/T

Questions

If there are any questions, please consult with the Product Manager.
